8 December 1981

MEMORANDUM FOR: Director of Central Intelligence

FROM:

[redacted]
Director, Intelligence Community Staff

25X1

SUBJECT: Papers for NSC Meeting

I have reviewed the papers for today's meeting quickly. I believe the Community has no significant equities-[redacted]-in the foreign assistance issues sketched in the reference. If the State Department budget is discussed, however, I believe you should give strong support to increasing the number of foreign service officers engaged in reporting and analysis. The Community relies on them heavily. We also benefit from State's expenditures on security and should support them.
